

Declaration of Non-GE Product Status

Any operator that intends to use an input or ingredient that falls under one of the following categories must have the supplier complete this affidavit or a similar document.

- A. Seed or a product derived from a crop species where there exist genetically engineered varieties (e.g., corn, soybeans, canola, etc.).
- B. Other input materials (e.g., inoculants) where GE materials may have been involved in the production of the input or substrate, as described in sections 4.1.3, 5.1.2, and 6.2.1 of CAN/CGSB-32.311.
- C. Non-organic agricultural ingredients, food additives or processing aids where GE materials may have been used in producing the substance or product.
