

ORGANIC FARM FIELD HISTORY SHEET

Producer Name: _____

Date: _____

Please complete the table below for each field under your management, including those requested for organic certification, fields in transition/conversion to organic production, and fields managed conventionally. *Transition/conversion* means that the fields are being managed in accordance with organic standards but have not yet met the standard for 3 years without use of prohibited substances.

For fields coming under your management this year which were previously managed by someone else, where the complete field history is provided on the Land History Affidavit (ORG_FAR_01_Land History Affidavit), you need only indicate the legal land description, the field number, the size, and the crop to be planted this year below.

Where the **field has been previously certified**, please provide the first certification date and the name of the certification body, as well as a copy of the previous organic certificate and legal land description.

If the field **has not been previously certified**, please provide the date of the last application of a prohibited substance.

FARM NAME CODES – Please assign each farm location a name or a code that can be used later below.
