

New Organic Dairy Herd Feed Record

Use this form to record organic and non-organic feed rations for transitioning dairy herds only. Include the ration information on feed supplements and additives, such as salt or mineral mixes. Indicate the dates each ration was fed. Use a new form for each class of animal. Please attach feed ration sheets developed for your operation.

Farm Name :		Production Year :		Date :	
Check type of dairy animal receiving this ration:		Production females <input type="checkbox"/>		Replacement females <input type="checkbox"/>	
Feed ration (Pasture, hay, silage, corn, grains, processed feeds, etc.)	% Of daily ration	Organic (O) Transitional (T) Conventional (C)	Source of feed (On-farm or purchased)	Date you began feeding this ration	Date you discontinued this ration
